# 1 Introduction

The Associate Certified Security Profiler register has been moved to the Centre of Experts (COE BV) on request from OrcaSecure BV as of 4 February 2022. The COE BV operates independently from OrcaSecure's organizational framework. People in this register can use ACSP (Associate Certified Security Profiler) after their surname as validation.

## 1.1 OBJECTIVE

This register offers people with proven knowledge in Proactive Security a chance to join as potential experts.

The (public) register can be consulted by individuals, institutions, organizations and/or companies in need of expertise in this field.

People can also choose to be listed in a private register. This can be requested by the individual or their employer. This means their personal information stays private and can't be accessed by others without their permission. In this case, the COE BV registration will include a Non-public Registration (NoR). The rules and rights in these regulations still apply fully.

## 1.2 WORK EXPERIENCE

To become an Associate Certified Security Profiler, you must meet one of these requirements:

- a) Have the Proactive Security theory diploma from the Centre of Experts or the Predictive Profiling theory diploma from the European Security Intelligence Foundation (ESIF).
- b) Individuals teaching Proactive Security with proven work experience are exempt from these requirements while they are actively teaching.

## **2 RIGHTS ACSP REGISTERED**

### **2.1 RIGHTS ACSP REGISTERED**

People registered can use the title ACSP to show they are in the Associate Certified Security Profiler register. Renewal happens each year with a fee.

If someone registered as ACSP qualifies for the CSP register, becoming a Proactive Security expert, their ACSP registration ends once they join the CSP register.

### **3 PRESENTATION OF DATA FROM THE ACSP REGISTER**

#### **3.1 PUBLIC REGISTER**

The following will be posted on the COE website: [www.centreofexperts.nl](http://www.centreofexperts.nl) in the publicly accessible register:

- Name
- Initials;
- prefix, academic title (limited to: bc, BA, BSc, MBA, MSc, MA, ir., ing., mr., drs, Dr) and,
- any suffixes;

#### **3.2 NON-PUBLIC REGISTER (NOR)**

The data mentioned earlier will be stored offline and accessed only through a secure process.

## **4 FINAL PROVISIONS**

The registrant must keep the information in the registers up-to-date, accurate, and complete. If unsure, they should contact COE BV directly.

Registrants cannot claim compensation for any damage that occurs or might occur due to changes in these regulations.

COE BV makes all decisions on register matters not covered by these regulations and will provide reasons for their decisions.
